Angers, France

SUMMARY

I'm looking for in my next job are a collaborative, team - focused culture, opportunities to learn and grow my skills from a technical standpoint and a chance to learn more leadership skills over time.

I'm a full stack developer who has experience of 5 years and handled many projects for businesses from startup to large scale. Working as a full stack developer for several years made me to have multiple skills in programming sphere. But I specialize in building blockchain, MERN stack development.

As for my skills and experience, I have 3 years of experience in Blockchain development and 7 years in full stack Web development. My experience enables me to make business success of clients. I can bring my successes and experiences to your job. I understand that every project that represents a business plays a very important role in its growth.

Some cool facts about me is that I can work full time on any time zone and I can deliver 100% result. I will devote all my passion for you and your business success.

CHALLENGE, CREATE, COLLABORATE.

EXPERIENCE

Frontend Developer

Codeon Cooperation

08/2011 - 07/2016 UK

- Built, designed, and implemented high-volume, high-scale responsive web front ends, web APIs, and data analytics solutions in the cloud.
- Provided effective troubleshooting and remediation for web applications.
- Cooperated with the back-end team in their development of RESTful APIs
- Implemented a pixel-perfect, responsive, and smart front-end UI. Worked well independently and within a team setting.
- Effectively translated client requirements into application designs and systems requirements
- Worked with web staff to develop more invigorating web content. Uploaded final images to private web galleries for client use and enjoyment
- Build Google friendly site.
